09 / 2010	FNZ Czechia	Brno, Czech Republic
—	Provides financial investment platforms to financial institutions	
05 / 2013	<i>Project Development Lead</i> (MVC.NET, REST API) Finished development of an online investment platform and managed it's support during first months after it's release to market. Besides managing development team, I had to provide estimates and contribute to project planning while communicating to client side employees in order to manage deployments. <i>Team Lead</i> (ASP.NET) Being assigned one of smaller projects, I had lead a team of several developers to deliver updates to an already functional platform. <i>.NET Developer</i> (ASP.NET) Cooperated in development of multiple online investment platforms using various .NET technologies. I had been sent to New Zealand for skill transfer.
